

Yarn Quality Monitoring Systems and Equipment

PC03

meiners-del

PhotoCount

Electronic Batch Counter

Application:

- Hoisery
- Socks
- Small Piece Work

Installation:

- Anywhere that pieces of work, e.g. stocking legs, socks, pantie hose, need to be counted as they pass by air pressure along clear perspex tubes.

Advantages:

- No contact with work pieces
- Absolute reliability
- Con not be tampered with by operators
- Counting sensor ring can mount anywhere on the tube
- Elimination of counting the same pieces of work again
- No mechanical trigger to replace or damage goods
- Available with or without integral batch counter/pre-set totaliser
- Output to control machine function or set of alarm signal or light
